SPECIFICATIONS OF BUCKET SEAT

MATERIAL

Fix HDPE Plastic shell only.
(High-Density Polyethylene)

CONSTRUCTION

HDPE blow moulded plastic chair.

UV RESISTANT

Plastic material will be UV resistant,
suitable for outdoor use.

WATER DRAINAGE

Rain water drain hole provided
for efficient water drain.

SEAT NUMBERING

Seat numbering is provided for
easy traceability.

THICKNESS

Each layer is in between
4 to 5 mm thick.

STAND OPTIONS

Aluminium / Metal stand with
powder coating.
(As per client requirement)

HANDLE OPTION

PU material handle can be provided.
(As per client requirement)

TEMPERATURE RESISTANCE

It can withstand a temperature
from **-60°C** to **+60°C**.

FITTING & FASTENERS

Fitting will be with anchor fasteners
& bonded chemicals.
(Size **M8 × 75 mm**)

KEY DURABILITY FEATURES

LOAD CAPACITY

Up to 150 kg (Static Load)

WEATHER RESISTANT

Ideal for all weather conditions,
rust proof & corrosion resistant.

LONG LIFE

Designed for long-term performance
with minimal maintenance.

TYPES OF MOUNTINGS OF BUCKET SEAT

Our bucket seats are compatible with multiple mounting systems to suit different stadium structures and applications.

01 GROUND MOUNT

Seats are mounted directly on a leveled concrete floor or terrace.

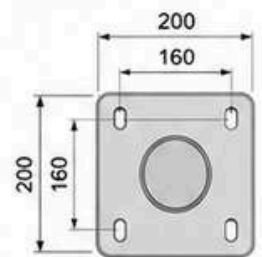

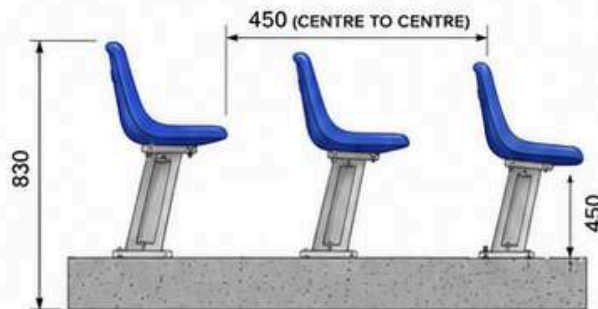

APPLICATION

Flat terraces, platforms, temporary stands.

ANCHOR FASTENER

M8 × 75 mm

ANCHOR FASTENER
M8 × 75 mm

02 RISER / WALL MOUNT

Seats are fixed on vertical riser or front face of concrete steps using metal brackets.

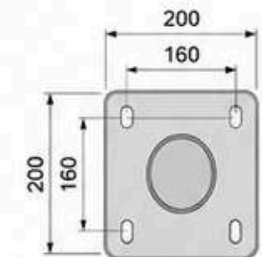

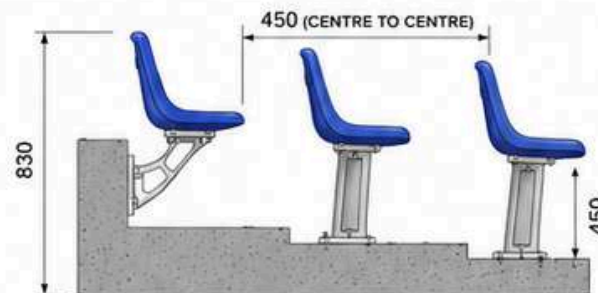

APPLICATION

Riser steps, stadium tiers, grandstands.

ANCHOR FASTENER

M8 × 75 mm

ANCHOR FASTENER
M8 × 75 mm

03 FLOOR / TREAD MOUNT

Seats are fixed on the horizontal tread (step surface) in between two risers.

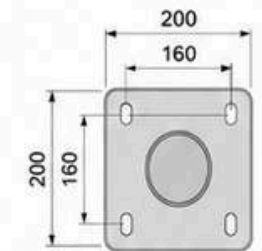

APPLICATION

Stadium steps, concrete tiers with tread mounting area.

ANCHOR FASTENER

M8 × 75 mm

ANCHOR FASTENER

RISER / WALL MOUNT DIMENSIONS

SECTIONAL ELEVATION

Designed for safe and ergonomic seating on stadium risers and walls with optimized pitch and height for spectator comfort.

NOTE:

All dimensions are in millimeters (mm). • Recommended pitch: 15° to 20° for optimal viewing comfort.

DIMENSION SPECIFICATIONS

DESCRIPTION	MEASUREMENT (mm)
Recommended Pitch	15° to 20°
Seat Back Height (from seat to top of back)	402
Seat Depth (Front to Back)	354
Seat Height (from front of seat to floor level)	440
Riser Height (Vertical)	300
Bracket Mounting Height (Top from floor level)	373

KEY FEATURES

- ✓ Ergonomic seating angle for maximum comfort
- ✓ Robust metal bracket for strong wall fixing
- ✓ Corrosion resistant powder coated bracket
- ✓ Suitable for concrete risers and walls

EASY MAINTENANCE LONG LASTING PERFORMANCE

Our HDPE stadium chairs are designed for low maintenance
and long-term durability in all weather conditions.

MAINTENANCE BENEFITS

EASY TO CLEAN

Smooth HDPE surface
allows quick and
easy cleaning.

WEATHER RESISTANT

UV stabilized material
resists fading, cracking
and all harsh weather
conditions.

DURABLE & STRONG

Built to withstand
continuous use,
impact and heavy
loads.

LOW MAINTENANCE

No painting or special
coating required.
Saves time and
maintenance cost.

HDPE chairs ensure a clean, safe and attractive environment
for spectators with minimum upkeep.

SPECIFICATIONS OF HDPE TIP UP SEAT

Seat & Back: Made up of HDPE Blow moulded.

Material & Thickness: Plastic material with minimum wall thickness should be 3.0 to 5 mm.

UV Resistance: The HDPE material must be UV resisted.

Tip Up Mechanism: Should be made up of sheet metal press parts of 1.6 mm thick, bent to seat contour shape.

Tip Up Rod: Should be of 16 mm sq. × 1.6 mm thick.

Torsion Spring: For tip up feature.

Stand Material: Should be made up of Aluminium pressure die casting material.

Stand Finish: Should be powder coated finished.

Fitting: Should be with M8 × 75 mm anchor fasteners with chemical bonding properties.

Seat Numbering: To be provided for easy traceability.

Row Indicator: Is a must on Aisle side for traceability of rows.

STRONG & DURABLE
Designed for high strength and long life.

UV RESISTANT
Resists UV rays and prevents fading.

WEATHER PROOF
Withstands harsh weather and corrosion.

LOW MAINTENANCE
Easy to clean and requires minimal upkeep.

ECO FRIENDLY
100% recyclable material and environment safe.

Smooth non-porous surface for quick cleaning and hassle-free maintenance.

ECO RESPONSIBLE

100% recyclable HDPE supports a cleaner and greener environment.

TECHNICAL FACTS (APPLICABLE TO ALL AUTO TIP-UP SEATS)

MATERIAL

HDPE Blow Moulded
Seat & Back

TEMPERATURE RANGE

-40°C to +60°C

LOAD CAPACITY

≥ 250 kg
(Static Load)

ANCHOR FASTENER

M8 × 75 mm
(Standard for all
mounting types)

MOUNTING OPTIONS

Ground Mount
Riser / Wall Mount
Tread / Floor Mount

MOUNTING TYPE COMPARISON

TYPE	HOW IT IS INSTALLED	SCHEMATIC	BEST SUITED FOR	DIMENSIONS (mm)
 GROUND MOUNT	Seat installed on flat surface using base plates and anchor bolts.		Multipurpose halls, auditoriums, indoor arenas, event spaces.	- Seat Height: ~305 - Base Plate Thickness: 8 - Anchor: M8 × 75 mm
 RISER / WALL MOUNT	Seat fixed on vertical riser/wall with brackets and anchor bolts.		Stadia, lecture halls, tiered floors, indoor theatres.	- Riser Height: 150 – 870 - Seat Height: ~400 - Anchor: M8 × 75 mm
 TREAD / FLOOR MOUNT	Seat fixed on horizontal tread (step) using base plates and anchors.		Terrace seating, indoor bleachers, stepped auditoriums.	- Tread Depth: ≥ 850 - Seat Height: ~305 - Anchor: M8 × 75 mm

OPTIONAL ACCESSORIES

CUSHION

Extra comfort for long seating durations. Ideal for premium venues.

HANDLE

Provides support and ease while moving along the rows.

MS STAND

Powder coated mild steel stand for superior strength. Ideal for indoor installations.

AL STAND

Lightweight aluminium stand with corrosion resistance. Perfect for coastal zones.

IDEAL FOR

- ✓ School & College Auditoriums
- ✓ Indoor Sports Complexes
- ✓ Convention & Seminar Halls
- ✓ Multipurpose Indoor Arenas
- ✓ Community & Cultural Halls

DURABLE ENGINEERING

High strength HDPE seats built to perform for years with minimum wear.

UV & COLOR LOCK

UV stabilized pigmented HDPE resists fading and keeps colors bright.

CLIMATE PROOF

Withstands extreme heat, humidity, rain and salty atmosphere.

EASY MAINTENANCE

Smooth non-porous surface for quick cleaning and hassle-free upkeep.

SUSTAINABLE CHOICE

100% recyclable HDPE for a cleaner environment and sustainable future.
